# SheetLabels.com Printable Ruler

## Print

Print this page at full scale or 100%. Make sure that your document scaling is set to “Actual Size”, “None”, “100%” or “Do not scale”. It’s important that this page is printed at actual size so that the ruler is accurate.

## Cut

Cut out the ruler

## Measure

Measure your product to find the label area. If you are applying your labels by hand remember to leave yourself some room. A fit that is too snug can make applying your labels difficult. Paper rulers are a great way to measure angled or curved objects.

## Order

Visit **SheetLabels.com** to find a label that matches your size

## Need help? We’re here!
